**RE: Monthly Update  
Forty Love Point Sewer Improvements**

Dear Ms. Hipp:

This letter is being provided to give an update on the work being performed at the Forty Love Point Subdivision in Chapin, SC as required by Commission Order No. 2018-677. On October 10, 2018 residential pump stations and re-routed sewer services were installed at the following homes, which previously experienced sewer backups:

- 105 Forty Love Point
- 132 Forty Love Point
- 6 Set Point Court

The pump stations are currently working as designed. Carolina Water Service has not received any sewer complaints from the residents since installation. The proposed long-term solution, which will be a wet-weather pump station at the south end of the subdivision, is currently under design. The long-term solution is on schedule to be completed in January of 2019.

If you have any questions or concerns, feel free to contact me by phone at (803) 960-5405 or email at [MRcartin@uiwater.com](mailto:MRcartin@uiwater.com).

Sincerely,

A handwritten signature in blue ink that reads "Michael Cartin".

Michael Cartin
